

Product name Steel Wool Gme-2

Description : Steel wool, Oil-free, Produced with AISI 1008 wire
Appearance color : Grey metallic wool
Applications : Filter, Land, air, marine vehicles muffler, exhaust sound and heat insulation

Product Characteristics

Low temperature explosion protection for exhaust silencer.

Technical Characteristics

Max. application temperature : 100 °C
Fiber length : in the line endless ap. 10% < 0,2m
Geometry of the fibers : irregularly
Specific density : 7,7 g/cm³
Chemical resistance : Not resistant to corrosion and acid

Fiber Distribution

Fiber strength	< 0,01 mm	0,01 – 0,06 mm	0,06 – 0,1 mm	0,10 – 0,15 mm	> 0,15 mm
Fiber distribution	4,0 %	1,0 %	65,0 %	14,0 %	6,0 %

Chemical Analysis %

C	Si	Mn	P	S
0,06–0,13	0,10–0,20	0,5–1,1	≤0,04	≤0,05
